

INTERNATIONAL ROAMING – WHAT TO EXPECT

BEFORE YOU FLY

International Roaming is enabled within your mobile SIM plan by default ^{1,2}

You'll need to enable roaming in your local mobile device settings. Instructions to assist with this are available further on in this guide.

WHEN YOU ARRIVE

As soon as you land, you'll receive a Welcome SMS with options to purchase a roaming pack.

Welcome to New Zealand! To use your 61493474180 while you're here, simply choose a roaming pack and text the code to 179:

Options:

?ROAM5: 5GB data, 30 mins, 30 SMS, 7 days validity

?ROAM10: 10GB data, 60 mins, 60 SMS, 14 days validity

?ROAM3: 3GB BizPack data, 300 mins, 300 SMS, 3 days validity

For example, text "ROAM5" to 179 to activate that pack. No reminders will be sent when validity expires, so just remember to add a new one when needed. Please refer to your service provider for more information.

AVAILABLE DATA PACKS

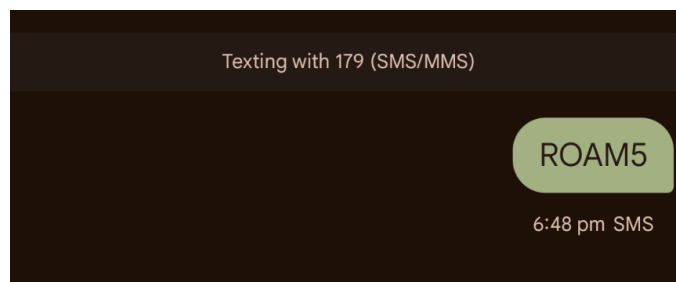

Description	Expiry	Cost (ex GST)	SMS Code
5GB Travel Pack (30 mins / 30 SMS)	7 Days	\$35.00	ROAM5
10GB Travel Pack (60 mins / 60 SMS)	14 Days	\$60.00	ROAM10
3GB Travel BizPack (300 mins / 300 SMS)	3 Days	\$65.00	ROAM3

If you don't want to add a data pack, simply ignore the SMS and no roaming charges will apply.

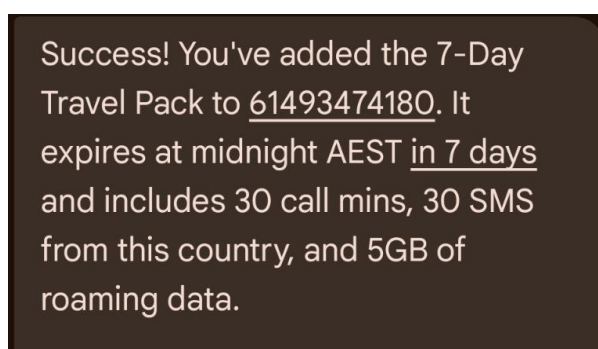

ADDING A DATA PACK

To add a pack, reply to the SMS by sending the pack's code to 179

*Example – To purchase the 5GB travel pack, send the code **ROAM5** to 179*

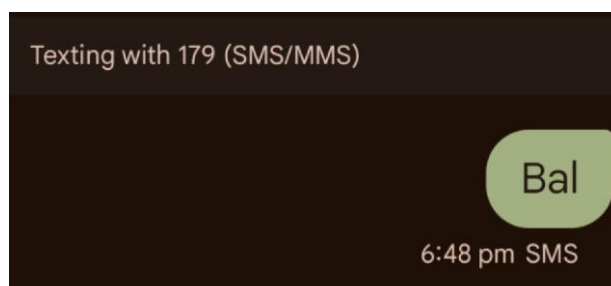

You'll receive a confirmation SMS once it's active

CHECKING YOUR USAGE

To see how much data, calls, and texts remain on your roaming pack, text **bal** to 179

Your IR Pack has 5.00GB data remaining, 30 minutes remaining and 30 SMS remaining, and expires on 20/08/25.

GETTING SUPPORT WHILE OVERSEAS

If you need help while travelling, you can contact us by:

E: support@pconnect.com.au

P: +61 2 8324 5688

Wi-Fi Calling works without International Roaming, as long as you have it enabled in your local settings

Support hours are **Monday to Friday, 7am – 7pm AEST** (excluding public holidays).

TROUBLESHOOTING: ENABLING ROAMING ON YOUR DEVICE

APPLE IPHONE

1. Open **Settings**.
2. Tap **Mobile** or **Cellular**.
3. Select **Mobile Data Options** or **Cellular Data Options**.
4. Turn on **Data Roaming**.
5. For calls and SMS, also make sure **Voice Roaming** is switched on (if shown).

Tip: You may need to restart your iPhone after changing these settings.

ANDROID

Steps may vary slightly by brand/model

1. Open **Settings**.
2. Tap **Connections** or **Network & Internet**.
3. Select **Mobile Networks**.
4. Turn on **Data Roaming**.
5. If available, also enable **International Roaming** or **Roaming for Calls/SMS**.

Tip: Some Android devices separate roaming for data and calls — make sure both are enabled if you need full roaming services.
